

## Election Posters in Japan: During the 2003 and 2004 Japanese Election Campaigns

Takao Sasaki

There are little research on Japanese political posters, and no central archive of posters. This is unfortunate, because posters can tell us much about party and candidate strategies and the key political issues of the day. And just as important, Japanese voters use posters as a key source of information when deciding which candidate to vote for.

In the general elections we photographed photographs at Omiya electoral district in Saitama. We will post photographs of political posters on the website.
